Travel: New Zealand, United States, Canada, Mexico, Guatemala, Cuba, Spain

Australia : I worked for a year in Australia in the catering industry, which allowed me to improve my English.

Judo - Black belt

Saxophone - 25 years of practice

Profile

Geek passionate about new technologies, I undertook in 2021, after many years of three-shift work a professional retraining to become web developer.

As well interested in the front end and the back end, I spent my time learning JavaScript-based technologies such as React.js or Node.js.

Able to design responsive and dynamic web applications, I am keen to join a team and continue to gain experience in this field.
